WORLD SEEKS MORE ABUNDANT LIVING, SAYS REV. OXNAM

Professor of Economics Gives
Views in Address Made at
First Methodist Church

"Beneath the crises in Russia, Poland, India, Japan and situation at home is the universal desire of mankind for more abundant living. There will be no settlement until we band ourselves together as social people to bring that about."

This statement was made last night at the First Methodist church by the Rev. G. Bromley Oxnam, pastor of the Church of All Nations in Los Angeles and a professor of economics at the University of Southern California, in the second of ten lectures upon Social Christianity.

"The Social Creed of the Methodist Episcopal Church" was the topic of the evening. Rev. Oxnam outlined the official stand of the church upon many of the economic questions of the day. He declared that only 5 per cent of the members of the denomination had read this document, although it was passed at a general conference in 1912.

Six social principles of Jesus were reiterated by the speaker as follows:

First—Man and not things are the goals of social life.

Second—The solidarity of the human family. We are brothers around the world whether we like it or not.

Third—The supremacy of the common good.

Fourth—Equal rights for all.

Fifth—Co-operation and not competition is the law of progress.

Sixth—Love and not force is the social power.

"Mankind has made up its mind that it is going to have a life worth while and nothing can stop it," declared Rev. Oxnam.

"When the American people get behind a certain definite thing, we can put that thing over and we are behind this disarmament proposition right now."

Speaking about the effort being made by liquor interests in America to get a grip on the 400,000,000 Chinese, Rev. Oxnam declared that the state department should refuse passports to those who go abroad to break the laws of this country.

Anxious to Get Work

The speaker declared that he had been in villages in India a year or two ago when the entire population had been wiped out by the flu on account of improper living conditions.

"I have heard some men say that men are out of work only because they are lazy," declared Rev. Oxnam.

"I wish that you could have seen the sight which I witnessed not many months ago—5,000 men rioting for the privilege of working."

After making a number of sweeping statements, the speaker concluded his address by remarking:

"One trouble is that we have been demanding idealistic programs and haven't been living idealistic lives."

Billiard Tournament Will Be Started at Local Elks' Quarters

Not to be outdone by the bowling enthusiasts of the Glendale Elks' lodge, who are conducting a seven weeks' bowling tournament on the local alleys, the billiard followers of the club have organized an association of 25 members for the conducting of a regular handicap billiard tournament. Match play in the project was started this week, four or five games being played each day to date.

The affair, which has been arranged in the same manner in which championship matches are conducted, is in charge of the following members: L. B. Ashton, William Viol, J. E. Wimmer, Claude Caswell and Joe Fortunato.

The tournament will not be completed until each candidate has played one game, the results of which are tabulated on a large bulletin board in the billiard room following each match. The first prize will be a jointed billiard cue and the second a special cue, the latter being donated for the occasion by George J. Tauxe of the Brunswick-Balke company.

D. W. Hanna, 201 West Lexington drive, and the Edwards & Wildey company, Los Angeles, have purchased the option from Ralphs Brothers on the John G. Huntley property, 221 West Broadway, according to an announcement of Mr. Hanna today.

The Huntley property is 68 feet on West Broadway with a depth of 106 feet, and makes, with the C. W. Dudley property at the northeast corner of Central avenue and West Broadway, 188 feet now owned by Mr. Hanna and the Edwards & Wildey company.

Plans are now practically completed, states Mr. Hanna, for the erection of a one-story brick building facing on Broadway on the 120 feet of the property extending east from Central avenue.

ESCAPE ARTISTS AS FEATURE ACT FOR T. D. & L. BILL

Varied Vaudeville Program Is
Offered Tonight; De Mille
Picture for Last Time

One of the most sensational acts of its kind in vaudeville is coming to the T. D. & L. theatre tomorrow and Saturday. In securing this act to headline their vaudeville road show Meklejohn & Dunn were particularly fortunate as Professor Brindamour and his company of escape artists are to leave, shortly on a tour of the east on one of the largest vaudeville circuits in the country. Marvelous escapes from handcuffs, strait-jackets and the many devices for holding prisoners, used both in this country and in Europe, are performed by this man in a very short number of seconds. Phesay and Powell call their offering "Vaudeville Eccentricities," and this versatile pair have a routine of songs, steps and stories that are sure to win much favor.

Two talented young people, Gale and Record have played a number of Los Angeles theatres in their act, "Songs You Love to Hear." This is an offering that is quite different from any which has ever played in Glendale.

Fortune in His Feet
Dancing Davey is a most enter-
taining chap who has a fortune in
his feet. There is no dance that is
too difficult for Davey and he allows
the audience to choose their favor-
ite for him to dance.

This program might well be called
a double one for on the screen there
will be seen William De Mille's latest
masterpiece, "After the Show," a
photoplay which is considered one of
the best of the year. In the cast of
this wonderful picture are Lila Lee,
Jack Holt and Charles Ogle. Popu-
lar prices will prevail as usual for
this show.

Today is the last day of Cecil B.
DeMille's magnificent production,
"The Affairs of Anatol."

Kansas Folk Visit Glendale, Like City, Purchase Property

Mr. and Mrs. A. E. Brane and W.
H. Franklin, who recently motored
to Los Angeles from Parsons, Kan-
sas, and who spent some time in
looking for suitable property, came
here and purchased two lots in the
600 block on Geneva street, the deal
being made by R. N. Greenlaw of
the Glendale Realty company, 132
South Brand boulevard.

The transaction took place with-
in two hours after the party ar-
rived in Glendale and means that
two more dwellings will soon be ad-
ded to the city, as the purchasers in-
tend to build at once.

Both Mr. Brane and Mr. Frank-
lin are expert carpenters and both
found plenty of work within a short
time after arriving in Glendale. The
sale just made by Mr. Greenlaw
makes a total of nine lots he has
sold on Geneva street.

SHE AIDS ARTHUR BURCH

LOS ANGELES, Nov. 17.—Mrs.
Angela C. Kaufman, wealthy bene-
factress of those whom she believes
worthy of help, has become one of
the active workers in defense of Ar-
thur C. Burch, facing trial for the
murder of J. Bolton Kennedy. Mrs.
Kaufman was the benefactress of
Eric Mullicane, of Lebanon, Mo., who
was acquitted here recently of the
murder of her nameless baby. She
provided the funds for the Mullicane
girl's defense and adopted her
younger sister.

At the county jail, it was learned,
Burch has talked with Mrs. Kauf-
man on numerous occasions and to-
day Mrs. Kaufman announced she
plans to do everything in her power to
aid him in his fight for acquittal.

FRANCE FEARS ARMY CUT

WASHINGTON, D. C., Nov. 17.—
If France should reduce her army
she "would be attacked on the next
day," Premier Briand, head of the
French delegation to the Arms con-
ference, declared in an interview
with newspaper correspondents.
"France will lay her plans before
the conference at the next open ses-
sion," Briand said, "and she will in-
sist that her army is now as small
as it is possible for it to be. The
United States and Great Britain now
have navies in excess of their needs,
but France's army is only as big as
is necessary for her protection."

CLIMBERS UP IN WORLD

LONDON.—The latest letter from
Colonel Bury, the leader of the ex-
pedition to Mount Everest, is pub-
lished in the Calcutta Englishman.
He reports that the expedition at
the end of July established a camp
at a height of 18,000 feet above
Rongbuk monastery, which is about
fifty miles from Everest. In this
monastery live 400 hermits and nuns.
Wild sheep and birds, having no fear
of man, eat from the hands of the
party. Birds settled on their should-
ers. Colonel Bury reports that a
way to Everest has not yet been
found. It will, he thinks, be a work
of intense toil.

Brooklyn, N. Y., forty years ago
earned its enviable name of "City
of churches" with one place of
worship for every 2,191 inhabitants;
today there is but one for every 4,
370 persons residing in the borough.

POSITION OF CHINA OFFICIALLY TOLD TO CONFERENCE

Republic Gives Statement in at
Arms Parley; Concrete Pro-
posals Will Come Later

WASHINGTON, D. C., Nov. 17.—
The Chinese delegation has sub-
mitted a statement to the armament
conference outlining that country's
position.

The main points officially out-
lined by the Chinese were:
First—The powers engage to re-
spect and observe the territorial
integrity and political and adminis-
trative independence of the Chinese
republic. China on her part, is pre-
pared to give an undertaking not to
alienate or lease any portion of her
territory or littoral to any power.

Second—China being in full ac-
cord with the principles of the so-
called "open door" or equal oppor-
tunity for the commerce and industry
of all nations having treaty relations
with China, is prepared to accept
and apply it on all parts of the Chi-
nese republic without exception.

Third—With a view to strength-
ening mutual confidence and main-
taining peace in the Pacific and the
far east, the powers agree not to
conclude between themselves any
treaty or agreement directly affect-
ing China or the general peace in
these regions without previously
notifying China and giving her an
opportunity to participate.

Declared Null and Void

Fourth—All special rights, priv-
ileges, immunities or commitments,
whatever the character or contract-
ual basis, claimed by an yof the
powers or in relating to China are to
be declared, and all such or future
claims not so made are to be
deemed null and void. The rights,
privileges, immunities and commit-
ments now known or to be declared,
are to be examined with a view to
determining their scope and validity
and if valid, to harmonizing them
with one another and with the prin-
ciples declared by this conference.

Fifth—Immediately, or as soon
as circumstances will permit, exist-
ing limitations on China's political,
jurisdictional freedom of action are
to be removed.

Sixth—Reasonable, definite terms
of duration are to be attached to
China's present commitments which
are without time limits.

Seventh—In the interpretation of
instruments granting special rights
or privileges the well established
principle of construction that such
grants shall be strictly construed in
favor of the grantors is to be ob-
served.

Eighth—China's rights as a neu-
tral are to be fully respected in fu-
ture as to which she is not a party.

Peaceful Settlement

Ninth—Provision is to be made
for the peaceful settlement of inter-
national disputes in the Pacific and
Far East.

Tenth—Provision is to be made
for future conferences to be held
from time to time for the discussion
of international questions relative to
the Pacific and Far East, as a basis
for the determination of common
policies of the signatory powers in
relation thereto.

The Chinese claims amount vir-
tually to a request to the powers
that the conference here in Wash-
ington grant China a "new bill of
rights."

The Chinese position was set forth
by Dr. Alfred Sze, Chinese minister
to the United States. In setting
it forth, he said that presentations
of concrete proposals would be re-
served until a later date, and that
for the present the Chinese would be
content with the general statement
of ten principles.

French Deny Briand Will Seek U. S. Aid Behalf Soviet Russia

WASHINGTON, D. C., Nov. 17.—
It was officially denied at the French
delegation headquarters here that
Premier Briand will attempt to
reach an informal agreement with
the United States government re-
garding the resumption of relations
with Soviet Russia.

"Premier Briand has repeatedly
addressed the Chamber of Deputies
arguing against the recognition of
Soviet Russia in the condition that
it stands today," it was officially
stated at the French office. "How
then can it be said that the Premier
will seek American co-operation?"
It was also denied that large
French interests are angling for con-
cessions in Russia with the aid of
American capital.

was named as correspondent in Mrs.
Camp's divorce suit. Camp gave his
age as 47 and stated it was his fourth
marriage. Mrs. Walker, known in
film circles as Mrs. Johnnie Walker,

ENGLAND TO BACK HUGHES

LONDON, Nov. 17.—"Great Brit-
ain not only merely welcomes the
proposals of Secretary Hughes, but
it is astonished at their extent," one
of the highest officials in the British
foreign office stated to an Inter-
national News Service correspondent. It
was admitted at the foreign office
that British naval experts sent to
Washington had been authorized to
submit a concrete plan for disarm-
ament, but that the Hughes proposals
completely overshadowed Great Brit-
ain's plans. Officials at the foreign
office all declared that Great Britain
will back Secretary Hughes whole-
heartedly.

CLOAKMAKERS ON STRIKE

NEW YORK, Nov. 17.—Sixty
thousand cloakmakers in New York
City went on strike Monday because
of an attempt by employers to re-
store the "piecework" system, which
officials of the International Gar-
ment Workers' Union declare will
bring back "sweatshop conditions."
Manufacturers stated restoration of
piecework was necessary for the good
of the trade and the "benefit of the
public."

WASHINGTON — The Arabian
Desert, which always was regarded
as an impregnable barrier to direct
communication between the Mediter-
ranean Sea and the Persian Gulf, has
been conquered by airplane, accord-
ing to advices to the army air service.

Instead of attempting to cross the
desert airplanes heretofore were ac-
customed to fly a semi-circular
course around its northern extremity,
thereby traveling many more miles
than the distance which actually sepa-
rates the air stations on the eastern
and western sides of this endless ex-
panse of sand.

The route will be 580 miles in
length. It will pass through Amman
in Transjordan and Kasel Azrak,
where landing fields have now been
established and then will take an
almost straight line across the desert
to Ramadieh, on the Euphrates, and
then to Bagdad.

The survey for the new aerial path-
way was made by the British Royal
air force, with the co-operation of
the Emir Abdullah, who helped in the
building of an advance base at An-
man, forty-five miles east of Jeru-
salem.

A fleet of airplanes, armored cars
loaned by the British war office, and
desert tenders fitted out with wire-
less telegraph apparatus were as-
sembled at Amman to begin their ad-
vance into the desert. The first 150
miles of the route was located with
comparatively little difficulty, but
160 miles from the starting point the
pioneers struck a vast tract of rough
lava beds. Enormous boulders were
scattered across this tract. The
workers were nearly baffled in their
efforts to get through the lava beds,
when word came by wireless from
airplanes scouting ahead that a way
out of the wilderness of stones had
been found. The ground parties set
to work anew and soon forced a
passage through ten miles of back-
breaking country into the desert
again, where the going was compar-
atively easy.

A few days later ground connec-
tions were made with Bagdad when
the armored cars arrived at the
emergency ground at El-jid, 300
miles from Jerusalem.

Operations were soon pushed on
from the Bagdad side, and Ramadieh
was entered soon after by both air
and land. Bagdad was entered
shortly afterward.

Work is now going on to perfect
the emergency landing grounds, and
in making permanent ground organ-
ization along the air route.

Denied Airplane, so Germans Use Gliders

LONDON, Nov. 18.—Germany is
forbidden to fly, so she is learning
to glide. The ban on the installation
of engines in aeroplanes, imposed by
the peace terms, has produced a new
type of locomotion.

This is the astonishing news that
was brought home by Handley Page,
who has been paying a visit to Gar-
sfield, on the Bavarian border.

"German airplane constructors
have turned their attention to the
development of aircraft with no en-
gine propelling power," said Mr.
Page. "and they are producing sub-
stantial results. The gliders are of
various types. One called the Mu-
nich has made the longest flight of
five miles. It has no engine, pro-
peller, under carriage, wheels, at-
tachments or elevators. It possesses
simply the fuselage and movable
wings, operated by the pilot.

"Another machine, called the
Hanover, has given the best per-
formance in turning in the air and
is peculiar in that it lands on two
footballs and has pneumatic shock
absorbers attached to the wings.
The Aachen type lands on skids in-
stead of wheels. Shock absorbers
are fitted, but the landing speed of
the glider can be reduced to little
more than a fast walk, and wheels
become unnecessary.

The method of launching ma-
chines for a flight is very interest-
ing. The machine is placed on a
suitably selected piece of sloping
ground. A rubber cord is attached
to a rope, which is passed round the
chassis legs. Three men pull on the
rubber cord, which, when it reaches
the necessary tension, is released,
and the machine is shot away as
from a catapult."

GLENDALE PRESENTS CLARA K. YOUNG'S FEATURE FILM

Noted Actress Assumes Four
Roles in Picture; Story
Very Well Picturized

The superb picture of Clara Kim-
ball Young in "Charge It," and the
preview of "The City Feller," star-
ling Cullen Landis, proved an excel-
lent program at the Glendale theatre
Wednesday night, and a capacity
house is predicted for tonight when
Clara Kimball Young's de luxe pro-
duction is again shown. The por-
trayal of four different roles in this
picture, that of the woman of
wealth, the modest housewife, the
nurse, and the dish washer thor-
oughly tests the histrionic abilities
of this popular actress.

Adversity, more commonly known
as "the school of hard knocks" is
often a blessing in disguise. Julia
Lawrence, wife of a prosperous fi-
nancier found no happiness in wealth
and comfort. Gorgeous diamonds
and extravagant clothes satisfied her
eye, but left her heart void and
empty.

Lesson to Teach

Clara Kimball Young, the principal
character of her latest photoplay
"Charge It," has a lesson to teach to
every one of us who makes gold
the goal of life. After tasting all
the pleasures that money can buy,
she realizes that she was happier
without wealth than with it. She
rejects the superior social position
that her husband has brought her by
marriage, and leaves the brilliance
and dazzle of the rich to retire to
the humble life of a working girl.

WAGE REDUCTION RESULTS

TRINIDAD, Nov. 17.—Notices of
a wage reduction averaging thirty
per cent were posted today in coal
mines of the Colorado Fuel & Iron
company in Las Animas and Huer-
fano counties. The cut affects ap-
proximately 3,500 men. In a state-
ment issued by the company it was
declared that no strikebreakers
would be imported and that if the
men quit work the properties would
be closed until they were ready to
return.

The company has no contract with
the union, but President McLennan
of the United Mine Workers of
America, has declared that a strike
would follow announcement of a
wage cut, the union leader taking
the stand that the men are operating
under the Wilson bituminous wage
commission award which fixed wages
until April, 1922. It is expected
that a strike will spread to all parts
of the state and state rangers have
been concentrated at strategic points
in readiness to quell disturbances.

DENIES THEFT OF BONDS

NEW YORK, Nov. 17.—Bert
Chapman of Boston, who was ar-
rested in his stateroom on the Aquil-
tania as it was about to sail, and
charged by Federal authorities with
criminal receiving \$10,000 worth
of bonds alleged to have been stolen
from the mails, said today he was
ready to return to Boston. He told
Federal agents he did not know what
was in an envelope he had been given
and that he merely acted as a mes-
senger for the Boston men who asked
him to deliver the sealed envelope.
The bonds carried by Chapman are
alleged to have been originally
stolen from the mails at Los Angeles.

FAIL TO FIND SUSPECT

SAN FRANCISCO, Nov. 17.—Offi-
cers who searched the steamer Wil-
helmina on her arrival from Hono-
lulu failed to find Joseph Kubej,
thought to have been aboard and
wanted in connection with the in-
vestigation of the theft of films valued
at \$1,000,000. T. Shima, arrested
recently, was said to have accused
Kubej of being involved in the ring
which planned to take the films to
Japan and re-print them there for
far eastern distribution.

Unite to Obtain \$14,000,000 From American Jewry That Children May Survive Famine

LOUIS MARSHALL JULIUS ROSENWALD

Under the chairmanship of Louis Marshall of New York, the American Jewish Relief committee is appealing for \$14,000,000 to carry on the work of rehabilitating stricken Europe. Assisting Mr. Marshall are other leaders in professional and philanthropic circles, among them Julius Rosenwald of Chicago, "who led the way, set the pace, and by his own example showed American Jewry its responsibility and duty." That responsibility still exists, for the duty is not yet accomplished. Starvation is now killing whole families in Russia. There are hungry children by the scores of thousands, too, in Poland, and men idle who might feed them if they could get the money to restart business and remake their lives. And there is disease in all these eastern countries, because again it takes hard cash to relay sewers, build new bathtubs and reinstate a ruined sanitary system. There is little use feeding children who may be later killed by typhus. A job, to be really good, must be carried through.

That is why the American Jewish Relief committee appeals confidently for the \$14,000,000 it now needs. Forty-seven millions have been already sent to Europe. With that money, millions of people have been saved from death. To give these rescued a real chance to restart life in their own country—that is one aim of the committee. Part of the money will go to buy carpenters' tools for the men, sewing machines for the women, building materials for new homes, plumbing for the wrecked towns. It will go to re-establish normal life for whole families in their own countries—to make them self-supporting, healthy and happy.

David A. Brown of Detroit, Mich., is chairman of the appeal for funds, which is now being initiated throughout America. Arthur Lehman is treasurer. Headquarters have been opened at 103 Park avenue, New York City.

SPORTS CHATTER
By BILL UNMACK
PACIFIC SPORTS SERVICE

Though San Diego and Coronado have not "big" football teams in their section, those cities are nevertheless keen to witness some of the best type of football. With this end in view V. C. Lewis, secretary of the Coronado Chamber of Commerce is negotiating with the famous Pacific fleet team to play a game at the Coronado Country club grounds some time next month.

An invitation has been extended the Washington State college team of Pullman, Wash., to oppose the sailors of Uncle Sam's navy. Such a match would be ideal. It would give Coronado and San Diego football enthusiasts the highest type of football played by two of the best teams on the coast. The navy is without argument one of the greatest teams playing this year on this coast, having held California to a close score and having beaten Stanford. Washington State also held California to a mighty close game, and in all respects the teams proposed are splendidly matched for a game of the type proposed.

If the invitation is accepted Secretary Lewis proposes to erect bleachers to hold 15,000 spectators and there is no reason why such an attractive match with two such famous teams competing should not attract a full house.

A new athletic organization is in course of formation in San Francisco to be known as the Bay County Amateur Athletic federation. The Pacific association, the local branch of the A. A. U. is considerably worried at the advent of the new organization. The new federation caters primarily to industrial bodies and is being formed with the uppermost thought of "promotion" of sports for sports sake among the large num-

ber of men and women who are not good enough to compete in A. A. U. events. It is an estimable object and one that should receive the encouragement of the A. A. U. branch.

The A. A. U. is primarily a body for the government of sports and does not—in San Francisco at least—act in the capacity of a promoting organization. The need of proper promotion of sport among the masses of employees of industrial plants has been a long felt want. The main objection of the A. A. U. branch to the new organization is that it is encroaching on the ground of their preserves. They also state that the "professional" rules of the proposed organization must be made rigid before they can accept the new organization.

There is no reason for a break whatever. The A. A. U. has never encouraged sports in the proper way among the organizations now desiring to get together. Their meets in the eyes of the law of the A. A. U. would be "closed events" and as such could not in any way jeopardize any rulings of the A. A. U.

The proposed organization is being patterned after the Cook County Athletic Federation of Chicago. This organization after a number of years' controversy with the central A. A. U. branch has been accepted by that body and there is a general friendly feeling between the two, and apart from that a definite understanding is held between them, and more over it is said now the two organizations now recognize the "registration" of each other's athletes, and registered athletes of each compete with and against each other. There is no reason why the same broad sense of understanding of Chicago should not be followed and adopted by the San Francisco branch of the A. A. U.

Kindly Atlanta Cop Makes Ideal Escort for Girl's Wedding

ATLANTA—What would have made an ideal O. Henry story with an ideal O. Henry touch and punch occurred here when Policeman W. S. Morgan found a young and pretty girl on the streets of the city at 2 o'clock in the morning crying.

Under ordinary circumstances, and with an ordinary policeman, the young woman might have been severely questioned and probably escorted to police headquarters to give an account of herself, but in this case it was different. The policeman asked the girl her name, and she proudly told him she was Miss Catherine Moore of Columbus, Ga., and she was seeking her sweetheart, Arthur Edwards, a hotel clerk, who had come here recently.

It so happened that of all people in Atlanta Patrolman Morgan knew Arthur, and knew the hotel where he was working as a night clerk and which the young lady had completely forgotten.

Accordingly lover met lover, and the next day Patrolman Morgan discovered himself playing the part of best man at the wedding between the two.

Wire Bustle Latest Hiding Place Used for Bootleg Booze

WILLIAMSON, W. Va.—To call Frances Hobbs, a woman resident of this place, a "bootlegger" would be slander.

The dictionary defines a "bootlegger" thus: "To sell liquor against the law; so called from the practice of carrying a flask in the leg of a boot."

But, getting back to Frances Hobbs. Frances undoubtedly sold contraband liquor of a more or less uncertain quality, but she carried none of it in her boots.

She was arrested by the state police and fined \$100 and sentenced to sixty days in jail by Squire Meek.

Although the state policemen knew Frances had booze on her person they could not locate it until they had another one of the same sex as Frances to do the frisking. To the amazement of the police the woman was wearing a fairly good sized bustle made of heavily padded wire. In this Frances carried several half pints loaded with moonshine.

Just how Frances extracted her hootch without trouble the police have not learned. But she was caught passing a half-pint bottle to a thirsty resident on a side street and taking his \$2 bill in payment.

Oldest Twins in Country Can Plow With Young Bucks

LEAVENWORTH, Kan., Nov. 18.—The oldest twin brothers in the United States, according to all available records, are James and Joel Cheatwood, of Fairmount township, Leavenworth county. The twins recently celebrated their ninetieth anniversary with a family reunion.

The twins still boast of being able to handle a plow and to cut as straight a furrow as any of the young bucks still in their teens. Neither of the brothers looks his age. Both have the agility of the average man of 50 and are examples of the rugged pioneers who settled in Kansas during the days of the Civil war.

"I am not old; I was just born a little sooner than the rest of you," drawlingly remarked one of the brothers.

The two brothers for fifty years have lived within a mile of each other. When they desire to visit they never crank up the "oliver." They simply "hoof it."

In appearance they can hardly be distinguished apart. Both can read without the use of spectacles.

Joel and "Jim" Cheatwood were born in Stokes county, N. C., October 11, 1831. Joel located in Kansas in 1857. He remembers many interesting incidents of pioneer days. Delaware Indians were on reservations here when Joel first came to Kansas.

Mr. and Mrs. Joel Cheatwood celebrated their sixtieth wedding anniversary January 20, 1921. They have seven children, and among them are twin daughters, both of Kansas City, Mo. They are 53 years old.

Jim Cheatwood located in Kansas in 1856, a year before his brother.

WIFE OF ROY GARDNER

SAN FRANCISCO, Nov. 17.—"What is to be will be." These were the philosophical words of Mrs. Roy Gardner when she learned of the capture of her husband. Since his escape from McNeil Island she has been employed here in a department store making a living for herself and her little girl.

"And just when I thought he must be safe," she added. "I don't know whether to feel glad or sorry. The uncertainty was awful." She said if he was returned to McNeil Island she would probably arrange her plans to go to Tacoma so as to be near him. She had planned to go there just before his last escape.

There are nearly 10,000,000 bachelors in the United States, counting all unmarried males more than 20 years old.

CRIMINALS FLEE PRISON

VICTORIA, Nov. 17.—Two desperate criminals, John Lynn, who was serving a life sentence for murder, and "Sailor" Mahoney, who had been serving a long term for robbery with violence, escaped from jail here. They awaited a favorable opportunity, threw a cloth over the jailer and gagged him. They then took his keys and left the jail. Lynn had previously escaped twice from the penitentiary and twice from the city jail. He and Mahoney are still at large.

IRISH OFFICIAL RESIGNS

LONDON, Nov. 17.—The attorney-general for Ireland, Denis S. Henry, K. C., and member of parliament, resigned in protest against the British Cabinet's policy toward Ulster.

CHAPLIN DIVORCE FINAL

LOS ANGELES, Nov. 17.—The final decree in the divorce case of Charles Spencer Chaplin, film comedian, against Mildred Harris Chaplin was formally entered in the Superior Court. Chaplin, when apprised of the action, stated emphatically the signing of the decree would have no effect on his future prospects and emphasized his previous denials of rumors he would shortly marry.

IRISH FINANCES SETTLED

LONDON, Nov. 17.—The questions of Ireland's finances and protection of the British coast have been satisfactorily settled in the negotiations with Premier Lloyd George, according to a prominent Sinn Fein official in an interview.

Alice Gentle Program Will
Prove Pleasurable; Teams
Show Great Rivalry

The announcement of the Alice Gentle program, which is to be given by the Glendale Music Club, of which Mrs. Mattison B. Jones is president, December 2, is lending great impetus to the membership campaign being launched to bring the membership of the club up to 600.

The aim of the club is and has been to give monthly concerts to the music lovers of Glendale who are to support the splendid artist series being brought to this city. It is not the object of the club to make money on these attractions, but to have sufficient members to insure the engagement of artists in advance, without necessitating the sale of tickets. Many of the artists are booked months ahead and it is the membership which enables the club to secure the best of talent, it is explained.

Teams Are in Contest
Many of the prominent men and women of the community are interesting themselves in the membership campaign and have given their services.

The men's committee, which includes W. S. Rattray, captain; Arthur Dibern, F. J. W. Henry, Percy Priaulx, O. E. Von Oven and Calvin Whiting, have already secured many new members and promise a good race with the four women's teams, headed by Mrs. E. W. Kinney as general membership chairman. They are:

Team 1—Mrs. Spencer Robinson, captain; Mrs. Clinton Booth, Mrs. L. N. Hagood and Mrs. Dora Gibson.
Team 2—Mrs. Calvin Whiting, captain; Mrs. R. D. Angelica, Mrs. Frank Arnold and Miss Mildred Pray.
Team 3—Mrs. Warren Roberts, captain; Mrs. Alexander Mitchell, Mrs. Emma Legge and Mrs. Helen Campbell.
Team 4—Miss Eva Daniels, captain, and Mrs. R. A. Puffer. The other members of Team 4 have not as yet been announced.

S. Z. Walters Gives
Contract for House,
La Crescenta Site

The Rommel Construction company, 133 South Brand boulevard, has just closed a contract to build an eight room, two story house in La Crescenta for S. Z. Walters. The dwelling will be the last word in modern conveniences, says H. E. Rommel, and will be situated on a beautiful site in La Crescenta with sufficient height to see Catalina Island on a clear day.

J. W. Frazier, who recently entered the employ of the Rommel Construction company to take charge of the department of estimating, has moved here from Sawtelle and is now residing on Harvard street. Mr. Frazier came to California not long ago from Toledo, Ohio. For two years he had charge of construction work for the St. Clair Refining company, his territory being the whole state of Michigan. Previous to that he was with the Standard Oil company.

Takes Three Husky
Hunters to Capture
Duck; Just One Duck

"See our duck," says Harry E. McCartney of the Edwards & Wilder realty company, 129 North Brand boulevard, as he hands out a snapshot showing three nimrods holding a lone duck which was bagged on a recent hunting trip enjoyed by Mr. McCartney at Big Bear lake. The snapshot substantiates the story told by Mr. McCartney that he, together with two others, figured in the capture of a lone wild duck.

MAN SHOT BY MISTAKE
REDDING, Nov. 17.—Charles E. Bradbury, an operator in a power house at Junction City, Trinity county, was shot on the highway by a Folsom prison guard hunting for two escaped convicts. The guard ordered Bradbury to halt and the latter, believing he was being held up, ran. The charge of buckshot fractured Bradbury's leg above the knee.

FREIGHT RATE REDUCTIONS
NEW YORK, Nov. 17.—The eastern section of the American Railway Executives committee at a special session here, decided to cut freight rates on farm products ten per cent effective immediately, as a means of giving relief to the farmers of the nation. The decision applies to all roads north of the Ohio and Potomac rivers and east of the Mississippi.

Camphor & Hydrastis
Fine For Sore Eyes
It is surprising how QUICK eye inflammation is helped by camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash. One lady whose eyes were weak and watery for three years was helped AT ONCE. Another case of red, inflamed eyes was also benefited. One small bottle Lavoptik usually helps ANY CASE sore, weak or inflamed eyes. Aluminum eye cup FREE. Roberts & Echols, Druggists.—Advertisement.

Court Action Reveals Rich Man's Adventure

CHICAGO, Nov. 17.—A pile of golden dollars, amassed under a name that was not his own, has brought about litigation over the estate of John K. Stewart, founder and president of the Stewart-Warner Speedometer company, and has revealed the "skeleton" of an early adventurous career. Mrs. Robert B. Honeyman, Jr., of New York, daughter of the late millionaire manufacturer of automobile accessories, is suing for an accounting of the estate from L. H. Lachance, chairman of the board of directors of the Stewart-Warner company and trustee of the Stewart estate. Mrs. Honeyman is the sole living heir to the estate, which is valued at more than \$5,000,000. She charges incompetence and mismanagement on the part of Lachance.

Investigations resulting from the litigation have revealed that Stewart's real name was Terence O'Brien. In his early youth he followed county fairs with two other men, and invented a machine for clipping horses. In Seattle O'Brien became acquainted with an attorney named Stewart, who aided him in getting a patent on his speedometer invention. The invention was placed on the market as the John K. Stewart speedometer. The Stewart part came from the name of the lawyer and the John K. was the name of a favorite race horse. O'Brien later adopted as his own the name under which his speedometer was marketed. He left the west, moved to Chicago, and amassed a fortune under that name.

A Wire for Every Wish
The home that's wired for ceiling lights only is only half wired. It's wall sockets and switch-plugs—here, there, everywhere—that make the home complete.
There is one for every wish. In the bedroom have one handy for the curling iron—in the dining room don't forget a floor connection for toaster and percolator. In the living room remove the unsightly cord from the ceiling—a plug in the baseboard will do it.
It's never too late. If your house is old, new or still in construction, your wiring can be made complete. Expert electricians ready to consult with you without charge or obligation.

Southern California Gas Company Making It Warmer in the City

The Southern California Gas company, 112 West Broadway, seems to be endeavoring to heat the great outdoors. Anyhow, it has placed a large Radiant Fire gas heater just outside the show window and many passersby pause by its unusual warmth.

According to W. R. Phelon, district manager for the company, a great many of these heaters have been sold in the past few days. He is inclined to think that judicious advertising in The Glendale Evening News has been responsible.

Speaking about this type of heater, Charles A. Nagle, salesman, remarked:

"It is a radiant heat. It is different from any other type. In the ordinary gas heater, which has just the plain flame, 40 per cent of the gas is unburned and thrown off as carbon monoxide. In this heater the flame is kept entirely within the radiant consuming every bit of gas and making it absolutely odorless. That is why it is 96 per cent efficient."

Mr. Nagle explained how the heater resembled an automobile carburetor in that the proper amount of air might be mixed with the gas, enabling a temperature to be obtained of 2450 degrees.

New Realty Office Opens; Large Amount of Property Listed

Dutton, the Home Fynder, is a sign that attracts a good many home-seekers to the office at the southwest corner of South Glendale avenue and Colorado street, the new real estate firm under the administration of N. L. Dutton, being ready for business at the new office quarters. With Mr. Dutton will be associated H. T. Prendeville, who will have charge of the office work, and David R. Browne, who will assist in the sales department.

"We have \$2,000,000 worth of property listed and two service cars for our clients," said Mr. Dutton. "We shall have subdivision property later on. Our big feature which we think will do much for building up Glendale is our builders' aid department, for those who care to invest in property for building purposes. "Glendale will be our main office, but we intend to establish branch offices in Eagle Rock, Burbank, Hollywood, Pasadena and Wilshire and other places."

Japan Is Not Yet Ready
WASHINGTON, D. C., Nov. 17.—Japan is not ready to make known its official views of the Hughes proposal for naval limitation, it was stated at the Japanese embassy here. "We cannot be expected to master so sweeping a plan in so short a time," one of the Nippon delegates declared. "It will probably be several days before we can come to any definite decisions or make any definite pronouncements regarding the proposal of Mr. Hughes. We can only say that we know our delegates have accepted the proposals in principle. We must wait."

Mary Garden Assisting Girl of Golden Voice

CHICAGO—American girls do not have to have oodles of money or a "pull" to get a chance in grand opera.

Not while we have Mary Garden. Witness the case of Mary McCormic, American girl and resident of Chicago, who will make her debut with the Mary Garden organization in stellar roles next month.

Miss McCormic is blessed with a golden soprano voice. She was singing in the choir of the Hemingway Methodist church last spring when Miss Garden began giving public auditions in search of a truly American voice. Miss McCormic's voice greatly impressed the manager of the Chicago Opera company, who told the young woman that if she would study all summer she would give her a chance this fall.

So, while other girls had been playing at the bathing beaches and having good times at dancing parties, Miss McCormic was learning eight leading operatic roles and studying French and Italian night and day.

And no one wants to see this little American girl make good any more than Miss Garden. The great operatic star has told her friends that no singer has impressed her as so much like herself in voice and personality as she was when she made her famous debut in "Louise" at the Opera Comique, Paris, as has the ambitious Mary McCormic, daughter of a general storekeeper at Belleville, Arkansas.

A candidate for the position of the world's meanest man has appeared in the person of the editor of a small newspaper, who published the following item in his "Social Gossip" column: Miss —, a young lady of twenty summers, is now on a visit to her twin brother, aged 31.
